

Inspection Report

Santa Cruz Biotechnology
Inc.
2145 Delaware Avenue
Santa Cruz, CA 95060

Customer ID: **3832**

Certificate: **93-B-0192**

Site: 001

SANTA CRUZ BIOTECHNOLOGY, INC.

Type: ROUTINE INSPECTION

Date: Feb-20-2013

2.40 (b) (2) REPEAT DIRECT NCI

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Sec. 2.40: Attending veterinarian and adequate veterinary care

(b) Each dealer shall establish and maintain programs of adequate veterinary care that include:

(2) The use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries, and the availability of emergency, weekend, and holiday care;

Five goats (#8820, #9044, #9927, # 8923, and # 9656) cited on the previous inspection report were receiving appropriate treatment for their health conditions.

Goat # 9472 was observed to have a copious, mucopurulent nasal discharge during the previous, 12/18/2012 inspection. According to records, the animal was not moved to the treatment area or evaluated by a veterinarian until 12/22/2012.

Failure to provide prompt medical treatment could jeopardize the health and well-being of the animals. The facility should ensure that their program of veterinary care appropriately addresses the medical needs of all animals under their care.

Previous correction date: Correct immediately.

An exit briefing was conducted with a facility representative.
This was a focused inspection of individual animals in barns H1, H5, and H7.
Accompanied by Dr. Pam Smith and Dr. Alexandra Andricos.

Prepared By:

MARCY ROSENDALE, D.V.M.

MARCY E ROSENDALE, D.V.M. USDA, APHIS, Animal Care
